

CREATE ♥ INSPIRE ♥ LOVE

the
fabulicious

Issue 1 | February 2024

Welcome to the first issue of *The Fabulicious*.

I'd like to start by introducing myself. I am Kate, a small business owner with a passion for all things creative.

Every month, I aim to inspire and promote creativity, along with sharing the latest news from my small business, Hilda & Dolly.

This (short, but very sweet) first issue, has lots of news from Hilda & Dolly. I would love in the future to include other news and views from makers in our community. I want to help promote all the lovely things we do as small independent businesses!

Enjoy the issue.

OODLES OF...

Who doesn't love a good doodle?

Doodling can be very therapeutic and it's a great way to 'doodle out' your thoughts and get creative! The art of aimlessly doodling is said to be very relaxing. It certainly works for me. I urge everyone to have a go.

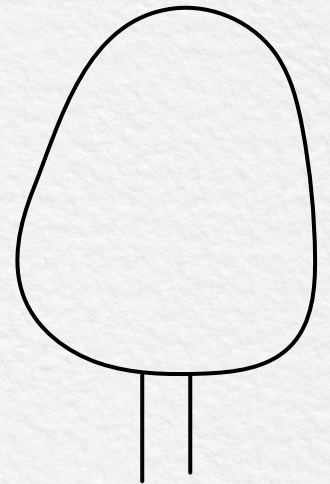

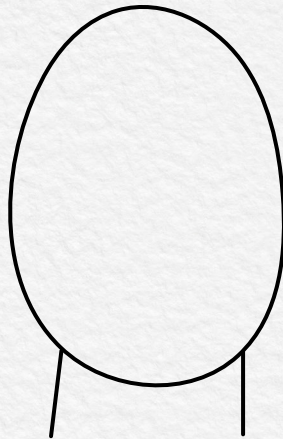

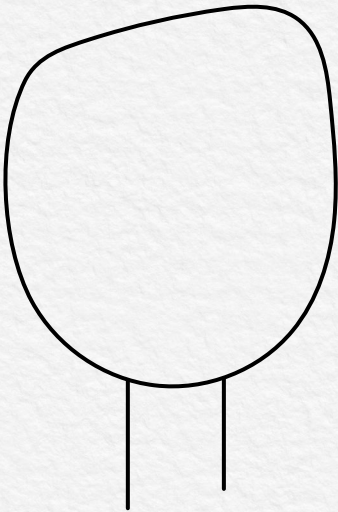

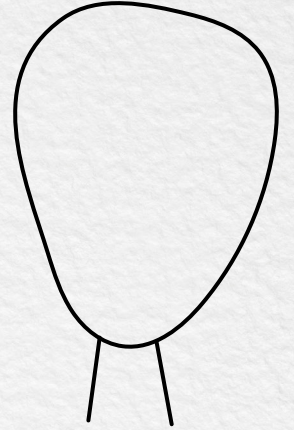

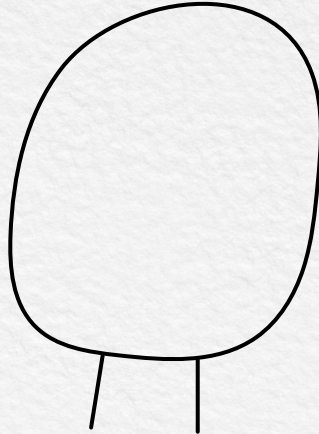

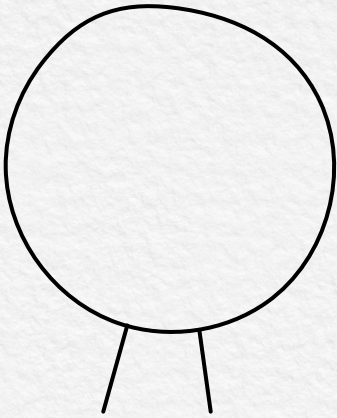

I've set up a little doodle exercise here so why not have a go and see what you can imagine. Print out the blanks on page 7 or use a blank page and copy out the blanks before you begin.

Add in the facial features: eyes, nose, mouth. Maybe ears, cheeks and eye brows... Experiment with as many different styles as you can think of!

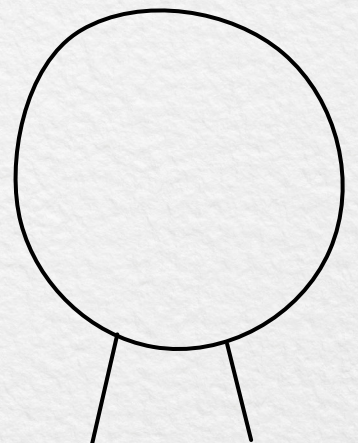

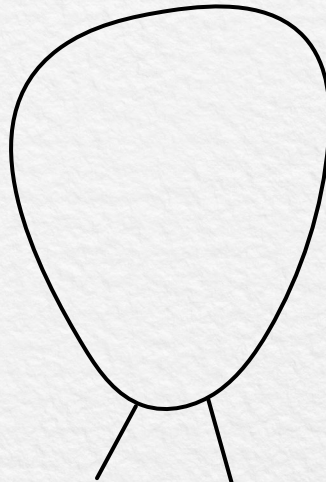

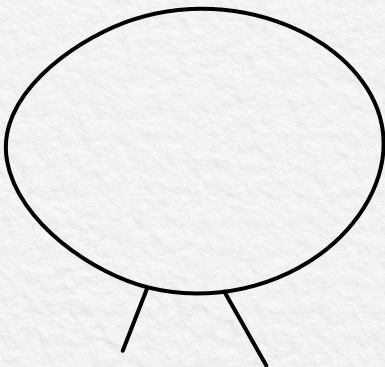

HAVE A DOODLE!

Print out this sheet or draw your own blank faces to fill in!

It would be great to see your doodles!
Email them to thefabulicious@outlook.com.

HOW TO MAKE
Origami
Paper
Hearts

I'd like to show you how to make a paper heart. These are very simple to make and quite addictive once you have made your first few.

This design was one of the first in the Hilda & Dolly card range, so it's definitely a favourite. I hope you enjoy making this heart!

Change the size of your square to create different sized hearts. This will give you a different feel to the design. Why not do a few smaller hearts in different colours. These would look great on a card!

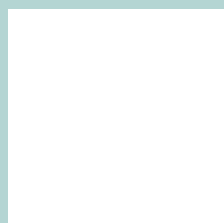

Experiment with different papers. I especially like to use wrapping paper for these hearts but you can use any scrap paper, art paper or even wallpaper.

Collect scrap papers. I have a huge collection of scrap paper. From gift wrap, card liners and off cuttings. Nothing is wasted. I file the scrap paper by colour so I can easily pop my hand on a wonderful off cut whenever a creative spark arises.

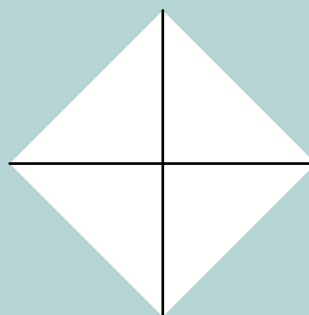

Step 1

Cut out a perfect square. The size I use here is 10cm x 10cm.

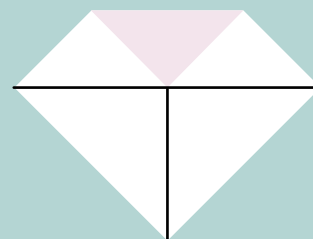

Step 2

Make three folds in your paper as shown below.

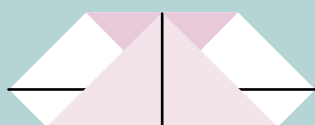

Step 3

Bring the top point down to the centre of the paper.

Step 4

Bring the bottom point up to the top edge of the paper.

Step 5

Fold one half up and over to the top edge of the paper.

Step 6

Fold the other half up and over to the top edge of the paper to form the making of a heart shape.

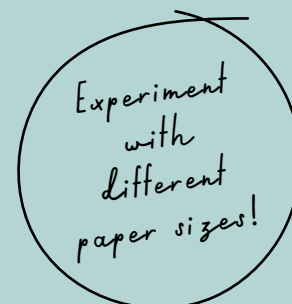

Step 7

Turn your paper heart around and tuck the four upper points in.

Step 8

Turn your paper heart back around to show your finished love heart.
